FlexITY Recognized by Cisco for Excellence in Customer Satisfaction in Canada

Richmond Hill, Ontario, January 28th, 2015 – [FlexITY Solutions](http://www.flexity.com) announced today that it has once again and for the fifth time in a row achieved a Customer Satisfaction Excellence Gold Star from Cisco. This designation recognizes FlexITY for delivering outstanding customer service to customers in Canada.

Customer Satisfaction Excellence is a core value shared by both FlexITY and Cisco. Peter Stavropoulos, President and Chief Executive Officer for FlexITY said, “Our key differentiating feature is repeating our consistent approach to customer satisfaction, and we truly value our partnership with Cisco as they recognize this commitment.”

Cisco measures the customer satisfaction levels achieved by its Gold, Silver, and Premier Certified partners based on regional target goals, providing a weighted average of a partner's pre- and post-sales support over a rolling 12-month period. Partners that achieve outstanding customer satisfaction are awarded the Customer Satisfaction Excellence Gold Star and can be found using the advanced search menu in the Cisco [Partner Locator](#).

The Cisco Resale Channel Program provides a framework for partners to build the sales, technical, and Cisco Lifecycle Services skills required to deliver Cisco solutions to end customers. Through the program's specializations and certifications, Cisco recognizes a partner's expertise in deploying solutions based on Cisco advanced technologies and services. Using a third-party audit process, the program validates partner qualifications such as technology skills, business best practices, customer satisfaction, and presales and post-sales support capabilities - critical factors in choosing a trusted partner.
